Introduction

Child and adolescent Mental Health is the responsibility of everyone involved with young people. Government guidance, 'Mental Health and Behaviour in Schools' published in March 2015 states that one in ten children and young people aged between 5 and 16 years have a clinically diagnosed mental health disorder. The document states that: **"In order to help their pupils succeed, schools have a role to play in supporting them to be resilient and mentally healthy"**

A healthy school actively seeks to promote Emotional Health and Well-Being alongside physical health and helps pupils to understand their feelings. At Withycombe Raleigh C of E Primary School we work to promote positive Emotional Health and Well-Being in the whole of our school community.
